Poor Arvind the cobra is hearing voices in his head and it's interfering with his "fangtastic" work as a dancer. You won't believe how Fifi helps this time!

When her owners leave the house, Fifi begins her day job as cat therapist extraordinaire. Whether her patient is an oversized dog that thinks he's still a lap puppy, an awkward teen giraffe or a kitty with a massive crush on a dog, Fifi's quick wit and sass helps them all, one tail at a time.
